Self-introduction

I am an undergraduate student at Sejong University.

My primary research interests lie in computer vision and multimodal large language models (MLLMs), particularly the integration of visual and textual modalities to achieve a more comprehensive understanding of multimodal representations.

Research interest

- Video Understanding
- Dense Video Captioning

Education

Sejong University/2023.03~

B.S in Dpt. of Artificial Intelligence

Expected Graduation: 2027.02

Total GPA: 3.81/4.5, major GPA: 3.8/4.5

Experience

Konkuk University, Multimodal AI Lab/2025.02~2026.07

Undergraduate researcher

- Research on Computer Vision: Dense Video Captioning

Publications

Stay in your Lane: Role Specific Queries with Overlap Suppression Loss for Dense Video Captioning

SeungHyup Baek*, **Jimin Lee***, Hyeongkeun Lee, Jae Won Cho (* Equal Contribution)

IEEE International Conference on Computer Vision and Pattern Recognition (CVPR), 2026

Under review

QR²: Query Relation-Based Reformulation for Dense Video Captioning

Jimin Lee, SeungHyup Baek, Jae Won Cho

Journal manuscript under review

One Slot, One Moment: Binding Disjoint Scenes and Decoupling Queries in DETR for Video Temporal Grounding

Chanyoung Ko, Seunghyun Mun, **Jimin Lee**, Jae Won Cho

Journal manuscript under review

Projects

Analyzing Digital Transformation Trends Using Multimodal Methods

KISDI, 2025.05~2025.08

- Keyword analysis of YouTube videos using an LLM
- Proposed a unified framework that automatically collects videos of various lengths and extracts keywords using an LLM

Skills

Programming	python, C
Deep learning	pytorch, scikit-learn
Interested in	C++, CUDA
